We The People...

Hold legislators responsible to voters' mandate

To the Editor:

Last November 3rd, Election Day, Massachusetts voters showed their concern for the health of our children by voting yes on Question #1. This initiative raised the cost of cigarettes by .25 and established a fund to be used to fund prevention and cessation programs, school health education, and maternal/child health programs.

The tax went into effect on January 1st, but the programs this revenue was to support are now in jeopardy. The Massachusetts Coalition For a Healthy future has drafted a recommended budget for the use of these funds which will ensure that the revenue raised will go to the programs mandated by the people.

As a member of the Massachusetts Coalition, the American Lung Association of Massachusetts is urging everyone to write or call their legislators now and ask them to support the Coalitions' budget.

We need your help. It is up to all of us to hold the legislators responsible to the voters' mandate.

Our children's future health is in our hands.

Beacon Hill Roll Call

BOSTON - This week's "Beacon Hill Roll Call" records the votes of Senator Matthew Amorello (R-Grafton) on four roll calls from recent sessions on proposed changes to the Senate rules and joint House-Senate rules. There were no roll calls in the House or Senate last week. The legislature continued its long practice of meeting in brief, informal session without roll calls during the April school vacation week.

LITTLE KNOWN RULE - Senate 24-7, rejected an amendment prohibiting a majority vote of the Senate from changing any rule which normally requires a two-thirds or four-fifths vote to change. The amendment modifies a little known Senate rule which allows the leadership-controlled Rules Committee to recommend changes to "facilitate business." The rule also permits a majority vote of the Senate to okay the change even if the current rules would normally require more than a majority vote to implement the change. Amendment supporters said the little known rule is anti-democratic and simply allows Senate President Bulger to change the rules at will and railroad legislation through the senate. Opponents said the little known rule is rarely used and is designed only for emergency situations in order to prevent a tiny minority from holding up the business of the Senate. Amorello did not vote.

TV COVERAGE - Senate 24-6, rejected a motion to bring to the Senate floor an order allowing TV and radio coverage of the Senate debate on proposed rules changes as long as the coverage does not disrupt the Senate. The Senate has spent some \$1.5 million on broadcast equipment but has yet to find a station to broadcast the sessions. Supporters said this order will allow stations to bring their equipment in and will open up sessions to public scrutiny. They said it currently takes up to four days for anyone to receive a copy of a tape of any session. Some opponents said stations can currently take a direct feed of the sessions or receive a tape of a particular session. Others said coverage will disrupt the decorum of the Senate. Amorello voted YA* (voted yes, but was absent) in favor of bringing the proposal to the floor for debate and a vote.

[* A "pairing" process, used only in the Senate, is a procedure which allows a senator who is absent when the

vote is taken to express his or her view anyway. Under the arrangement, the absent senator contacts a senator who is present and plans to vote the opposite way. The present senator agrees to "pair" his or her vote with that of the absent senator. Neither vote is counted in the official total - they cancel each other out. Each senator is still able to be unofficially recorded in favor or in opposition to the bill or amendment. YA means the senator voted YES but was absent.]

REPORT BILLS - Senate 33-0, approved a joint House-Senate rules change requiring committees to report out all bills by the first week of April instead of the last week in April in an election year. Supporters said this will facilitate the business of the Senate and insure that committee hearings are completed earlier and bills are promptly brought to the House and Senate floor for action. Amorello did not vote.

CARRYOVER - Senate 35-0, approved a joint House-Senate rules change allowing some bills which are pending before the legislature at the end of the first year of a session to be "carried over" in the same state of approval into the second year. The amendment applies to bills which have received near-final approval in both branches, local bills approved by cities or towns and bills which are pending before a conference committee. Supporters said this will prevent action on these bills from having to start from scratch each year. While there were no votes against the change, some senators noted it does not take effect unless also approved by the House. They said the idea has been proposed for years but never receives the approval of both branches. Amorello did not vote.

COMING UP ON BEACON HILL

Following is a list of some of the upcoming legislation to be acted upon by the House and Senate. If you would like to urge your elected officials to argue in favor of or in opposition to any legislation, they may be contacted as follows:

Senator Matthew Amorello, Room 314, State House, Boston, MA 02133-1053 (Tel: 617-722-1485); Representative Richard Moore, Room 26, State House, Boston, MA 02133 (Tel: 617-722-2080); Representative Paul Kollios, Room 22, State House, Boston, MA 02133 (Tel: 617-722-2140).

LEAD PAINT (H 1823) The Health Care Committee is expected to act soon on a bill to help landlords cope with the state's lead paint laws. The committee is trying to balance the

desire to protect children from swallowing lead paint with the up to \$10,000 expense the mandatory law imposes upon landlords. The bill offers a tax credit of \$2500 to property owners who delead and also allows the less expensive "containment" rather than more expensive "elimination" of lead paint.

CIGARETTES IN PHARMACIES (H 2790) The Health Care Committee is also considering a bill prohibiting the sale of cigarettes and other tobacco products in drug stores. Proponents of the bill contend that pharmacies which sell medicine to combat sickness should not sell cigarettes which harm people's health. Pharmacy owners say the bill is another example of government interference and overregulation. They claim it will hurt drug stores and do nothing to reduce smoking.

CASINO GAMBLING (S 392) This bill before the Government Regulations Committee would create a special commission to study the possibility of casino gambling in the state. The idea of legalizing casinos here has been kicked around for years, but has gained some backers in light of the revenue and jobs sponsors say it could generate for the state's troubled economy. Strong opposition continues from those people against gambling on moral grounds and from others who say it will increase crime and empty the pockets of low income gamblers who can least afford to lose the money.

CRIME BILLS - The Public Safety Committee is considering a bill (H 4169) allowing prison inmates with terminal illnesses, primarily AIDS, to be released on medical parole. Sponsors say the bill will allow these prisoners, who do not pose a threat to the community, to leave prison and die at home in peace. Another bill (H 1874) would allow corrections officials to inspect certain mail sent out of jails by inmates. A 1992 state court ruling put a stop to the practice but officials are pushing for passage of this measure which they say helps them detect death threats and extortion attempts.

GRANDPARENTS (H 2243) The Judiciary committee is expected to endorse and send to the House a bill giving grandparents certain visitation rights with their grandchildren even if the parents choose to cut off all contact. Proponents say the bill will insure that grandparents who have had regular contact and visits with their grandchildren will retain visitation rights in the case of a divorce or family fight.

May Fellowship Day

MILLBURY - May Fellowship Day, a worship service of Church Women United (CWU), held annually on the first Friday of May, will be observed here on Friday, May 7, at 6:30 p.m. at the host church, the First Congregational Church of Millbury. The service will follow a covered dish supper. The Millbury-Sutton Council of CWU is sponsoring the celebration entitled, "Human Touch, Divine Healing."

May Fellowship Day, although celebrated nationally, focuses on unity and issues within the local community. It began in 1933 as two separate functions; a luncheon sponsored by the Women's Council for Home Missions, which was concerned with "Child Health" and "Children of Migrant Families," and a "Dedication Day" sponsored by the National Council of Federated Church Women to encourage community interest in the social concerns of local councils of church women. In 1939, the two were merged under the National Council of Church Women, retaining the luncheon forum; in 1945, it was officially named May Fellowship Day.

According to the chairwoman of the May Fellowship Day, Ruth Grundstrom of the host church, the following women will be participating in the service: the Reverend Jane Haley, pastor of the host church; Lois Karaci, co-chairwoman of the Millbury-Sutton Council of CWU, and Dorothea Molleur, both of St. John's Episcopal Church, Wilkinsville; Frances Taylor of Millbury Federated Church; Mary Mulhane of St. Brigid's Church. Ushers will be: Ellen Norton, Carolina Pescheta, Helen White, of St. Brigid's Church; Hilda Howe of Millbury Baptist Church. Gary Lednar will be the organist.

May Fellowship Day this year continues with the theme of healing that is carried through CWU's three 1993 celebrations, launching a national focus to enact a comprehensive health care program for the United States. This service reflects on personal healing of mind and body - both giving and receiving - through biblical and modern references and sharing of individual thoughts and experiences.

Collections received from the May Fellowship Day service will be retained by the local community. All Christian men and women are invited. For more information, contact Ruth Grundstrom at 865-5917.

From My Window on Farnsworth Court By "Pastor Rae" Cameron

How's your sense of humor? Did you know that a good laugh can keep you from feeling pain? I recently underwent surgery, and when they went to freeze the area to be removed, I told them that I had just read that if you laugh, you won't feel the pain. So I said, just tell me a joke and I won't feel a thing. They went ahead with the freezing, but you know, I never felt a thing after the slight prick of the needle.

Last summer, I met a lady whose husband died of Hodgkin's Disease, and she told me not to take things too seriously. That's what her husband had done, and it killed him. With that advice, I have been the most laid-back guy you could ever meet. And by the way, my last C.A.T. scan came out normal. Praise the Lord, and thank you for your prayers.

We have become a very serious people these days. I don't know when the last time I had a real good old-fashioned belly laugh. Oh, I've tittered a little bit, but you know what I mean by a belly laugh, or do you? Have we gotten that far away from one?

I recently read that World War II happened because the German people lost their sense of humor. If the first person to click their heels and shout, "Heil Hitler," had been laughed at, the whole affair would have stopped right there. One of the reasons for our victory was because we had a good sense of humor in those days, and we used to sing, "We'll Heil! Heil! Right in the Fuhrer's face."

Heathens rage, and kings set themselves against the Lord, but "he that sitteth in the heavens shall laugh." God will have the last laugh. Read the end of The Book. We win. Amen.

Fill her cup with love.

Kollios said the act also provides increases in investment tax credits and other tax incentives for businesses to locate in areas of high poverty and unemployment and establishes a rapid response team to intervene in situations where there is a possibility of job loss.

"We have taken important steps to creating confidence in Massachusetts nationally and worldwide," Kollios said. "In addition, the Legislature has also focused on expanded job opportunities which will give local residents access to wages that will improve the overall standard of living."

'Exceptional growth' at Fidelity

FITCHBURG - "Another year of exceptional growth," was the highlight of comments by Francis M. Metterville, President of Fidelity Co-operative Bank, at the 105th Annual Meeting. Assets of the Bank increased to \$133.5 million, while Reserves continued record-pace growth to more than \$12 million, or 9.00% of Assets. More than \$2.7 million in income was realized during this period, netting out to \$1.6 million after payment of federal and State taxes. "Fidelity continues to be one of the most profitable institutions in New England," Metterville said, "and has been consistently recognized with a 5-star rating by major rating agencies."

While deposits of the Bank reflected modest growth overall, the Leominster Office generated more than \$3.5 million during the past year, representing an 11% increase to \$36,088,664. "This office has experienced a tremendous number of new accounts," Metterville said, "as both new and existing customers seek a secure depository for their funds." All deposits at Fidelity are insured by FDIC up to \$100,000 per depositor, with any additional deposits insured by the Co-operative Central Bank Share Insurance Fund.

A 30% increase in real estate lending took place during the past year, with more than \$35 million being extended for the purchase, remodeling and refinancing of residential property. Again, the Leominster office excelled with a 47% increase in lending, while more than \$12 million in mortgage loans was generated in the Millbury market area, 81% being new borrowers of the institution. "Recent declines in real estate prices combined with lower interest rates should provide a continuation of this loan activity," Metterville said. "Additionally, a new product, the Affordable Homeownership program, developed especially for first-time home buyers, will be a major factor in attracting new borrowers to our Bank, to join the many satisfied customers who prefer to have their loans serviced by a local, community bank, rather than out-of-town, less service-oriented organizations."

The discounted rate offered on Home Equity Loans during the past few months, has enabled existing homeowners to use the equity in their homes to complete remodeling and expansion projects, or to finance college tuition or a major purchase.

Metterville said an aggressive marketing campaign to educate parents and students regarding the various loan products available for educational purposes has resulted in

a 12% increase in student Loans of \$335,041 during the past year.

Metterville also announced a commitment by the Board of Directors to support local communities, with a donation of funds to be utilized for parks and recreational purposes, as a way of saying "Thank you" to area residents in helping the Bank to grow and prosper. The sum of \$10,000 has been allocated for this purpose, to be donated to the cities of Fitchburg, Leominster, Gardner, and the Town of Millbury.

Metterville recognized Jay M. Rome of Leominster upon his retirement from the Board of Directors, and presented him with a gift. Rome was elected a Director of the Bank in 1977, and also served as a member of the Finance Committee since 1979.

Metterville also announced the election of a new Director by the Bank's shareholders. Ronald J. LeBlanc, Executive Vice President and Treasurer of Fitchburg Mutual Insurance Company, was elected for a three year term. He is a graduate of Mount Wachusett Community College and Fitchburg State College, and is a member of the American Institute for Property & Liability Underwriters, the Institute of Chartered Financial Analysts, the Boston Security Analysts Society, and the Bond Analyst Society of Boston. He also serves as Treasurer of the United Way of North Central Massachusetts and as Treasurer of the Leominster Assembly of God Church. He lives in Leominster with his wife Katherine and their two children.

Betty G. Bjurling was promoted to the position of Assistant Vice President. She began her employment with the Bank in 1969 as Teller/Clerk, and was appointed Assistant Branch Manager at the Leominster office in 1976, and as Assistant Treasurer and Manager of that office in 1977. In December, 1990, she transferred to the Main Office in Fitchburg, and has been responsible for document quality control and is Loan

Closing Coordinator for all offices of the Bank. She is a 1968 graduate of Mount Wachusett Community College and lives in Leominster with her husband Brian. She is the daughter of Gertrude Moore of Leominster and the late William G. Moore.

William J. Williams, President of Burbank Hospital, and Joseph L. DiConza, Senior Vice President of Fidelity, were re-elected to new three year terms as Directors by the Bank's shareholders, and Mary M. Leary as Clerk of the Corporation for one year.

Officers of the Bank who were re-elected to new one year terms are: Francis M. Metterville, President and Chief Executive Officer; Joseph L. DiConza, Senior Vice President and Chief Financial Officer; Debra Pochini, Treasurer; Mary M. Leary, Vice President/Administration, and Clerk of the Board of Directors; Thomas A. Carter, Vice President/Operations; Richard J. Williams, Vice President/Lending, and Linda M. Hietala, Vice President/Gardner Manager. Elaine D. Shattuck, Cynthia A. St. John, and Marylou A. Drapeau were re-elected as Assistant Treasurer's of the Bank.

Moore seeks reform of campaign financing

BOSTON - As the Legislature's Committee on Election Laws concludes a schedule of eight public hearings on the over 160 bills referred to the Committee this year, House Chairman Rep. Richard Moore (D-Uxbridge) said he is now preparing to turn citizen testimony into final legislative format. Moore said the main issues he faces this session are campaign finance reform, voter registration, election procedures, the question of term limits, and streamlining the process for communities to adopt provisions to recall local elected officials.

Kollios seeks to expand drug free zones

BOSTON - Representative Paul Kollios (D-Millbury) has endorsed legislation to expand drug free zones by adding skating rinks and public swimming pools to the statute. Under the present law, individuals convicted of dealing drugs within 1000 square feet of a school are required to serve a mandatory jail sentence.

In other matters, Kollios announced that Massachusetts now has a carjacking law on the books which took effect April 14. The law provides a state prison sentence of up to 15 years or up to 2 and 1/2 years in a jail or house of correction and a maximum fine of \$15,000 for any individual convicted of attempting or stealing a motor vehicle while assaulting or threatening the operator of that vehicle. If the perpetrator is armed, there is an additional maximum sentence of 20 years in a state prison or 2 and 1/2 years in a jail or house of correction and a minimum fine of \$5,000.

Another Point of View

Let them all Start Governing By Lawrence Moore

Too bad the Academy Awards have all been allocated. It is fortunate for Hollywood that the awards are limited to the film industry. Surely the thespians in Washington would have given the judges a difficult time. The posturing, displays of sentiment, exhibitions of mock terror, sanctified predictions of doom, mounting of verbal sword-play, and the solemn mockery of democratic law-making would have been almost impossible to surpass by those paid to act and to entertain.

While the shenanigans created fodder for C-SPAN, the people were not entertained or amused. The people were saddened.

The President has shown an amazing ineptitude in governance. His decision, after all the "it's the economy, stupid" chatter, to choose decidedly less than first tier problems to address at the outset of his term, was puerile. He was going to show "them" who was boss. "They" refused to buckle. So the armed forces are in a state of unrest.

The drug companies, buffeted with some cause, struck back with a plan hard to fault. It was "their" plan, but it might have been a partnership plan if handled more diplomatically.

The medical world is in an uproar, as are the people. Those who have jobs and are either barely getting by or living in dread with inadequate health plans, are upset at the thought that they, taxpayers, are going to have to pay for the uninsured: welfare recipients, criminals, migrants, illegal immigrants, and others who, either by force of economic distress or sheer neglect, do not have health coverage. Bulling Hillary into the command post, bad in itself for public tolerance, was aggravated by her exclusion of key players in the health field in favor of academics and philosophers.

Perhaps worst of all was Clinton's bowing to the "special interests" (who he had vowed to take on) on the use of public lands and resources. At a National Review luncheon at the National Press Club, at least a dozen times the ganged up Republicans said it was proven, as predicted, "He can be had." Trying to railroad his "job" plan through the Senate set the stage for criticism of both Clinton and Dole. After many terms as Governor, and after having been beaten in the interim of his terms, his inability or his unwillingness to anticipate the filibuster, his failure to engage with Dole in a substantive debate and compromise, and his subsequent finger-pointing leave doubt as to his awareness of his tenuous position and assures observers that his head is swollen by his status, but encloses only as much as it did before the swelling.

The Republicans, led by Dole, have not enhanced the esteem in which they are held. They are still listening to Nancy Reagan: "Just say no!" If they ever hope to win in 1994 and 1996 other than by default (Heaven protect us!) they must show, as must Clinton and the Democrats, a willingness to hammer out a program that can be supported...before the show-down vote. This is the time to put the country, all the millions of us, ahead of partisan politics or presidential pride. As we have a right to expect, Let Them All Start Governing!

Manchaug sewer system. FinCom recommends passing over this article because of financial constraints, saying the town must wait for State/Federal grants to become available. (Article 31)

- \$22,000 to develop town-owned recreation sites. FinCom recommends passing over this article because of financial constraints. (Article 32)

- \$25,000 for the design phase for a new community center. FinCom recommends passing over this article because of financial constraints. (Article 33)

- \$10,600 to purchase furniture and equipment for the library addition. FinCom recommends passing over this article because funds are available under a library renovation article voted at a previous town meeting. (Article 34)

- \$8,000 to replace the roof on the Manchaug Library. FinCom recommends passing over this article because the roof is not leaking and financial constraints limit funds at this time. (Article 35)

- a sum of money to pay hydrant rental fees to the Wilkinsonville Water District (Article 36) the Manchaug Water District (Article 37) and the Whitinsville Water Company (Article 38) for the Fiscal year beginning July 1, 1993. FinCom recommends passing over these articles because of financial constraints

In other action, voters will be asked:

- to amend General Bylaw #15 (Council on Aging) by adding a new paragraph (d) which reads as follows:

"d. The Council on Aging shall also consist of two (2) alternate members appointed by the Board of Selectmen for three (3) year terms. Alternate members may speak on any issue that comes before the Council but may not vote. The purpose of alternate members is to be available for consideration as full members if and when a vacancy should occur." FinCom recommends approval. (Article 10)

- for funds for the annual operation and maintenance of a proposed transfer station. FinCom (7 yea, 2 nay, 1 abstain) recommends that this article be passed over because, "Insufficient information available at this time to make decision." (Article 14)

- to accept the local option early retirement program enacted by the state legislature. FinCom recommends that this article be passed over because it is "not in the town's best interest" since the retiring employee must be replaced, which, FinCom said, defeats the purpose of the statute. (Article 15)

- to accept a local option provision of general laws which allows the town to send tax bills out four times a year instead of twice as is the current practice. FinCom recommends approval. (Article 16)

- to amend section 13.4 (Site Plan and supporting Material Requirements) of Article 13 (Site Plan Bylaw) of its Zoning Bylaw be deleting the second paragraph which reads as follows:

"Site plans shall be prepared by a registered professional engineer, land surveyor, architect, and/or landscape architect (as necessitated by the size and detail required) at a scale of 1 inch equals 20 feet, on

standard 24" x 36" sheets, with continuation on 8 1/2 x 11" sheets as necessary for written information."

and substituting the following new second paragraph:

"Site plans, at a scale of 1 inch = 40 feet, shall be prepared by a registered professional engineer, land surveyor, or architect. In addition, a landscape architect may need to prepare (or assist in preparing) plans, as necessitated by the size and detail required, at a scale of 1 inch equals 20 feet on standard 24" x 36" sheets, with continuation on 8 1/2 x 11" sheets as necessary for written information." FinCom recommends acceptance. (Article 17)

- to amend subsection 5.4.3 (Agriculture) of section 5.4 (Table of use Regulations) of Article 5 (Use Regulations) of its Zoning Bylaws by deleting lines 19 and 20. This amendment removes sections of the Zoning Bylaw currently regulated by the

Wetlands Protection Act. FinCom recommends approval because the sections removed are adequately covered by Wetlands Protection Act under the jurisdiction of the Conservation Commission.

- to amend subsection 5.4.4 (Retail Sales and Service) of section 5.4 (Table of Use Regulations) of Article 5 (Use Regulations) of its Zoning Bylaws by deleting line 6 which reads "Commercial stables, kennels, or veterinary hospital in which all animals, fowl or other forms of life are completely enclosed in pens or other structures" and substituting an amendment that would prohibit the listed uses anywhere in town. FinCom will refer this article to the Planning Board for a recommendation. (Article 19)

- to amend Section 10.6 (Penalties) of General Bylaw #10 (Public Sewer Bylaw) to permit civil action as well as criminal action for the illegal use of the town's sewer system. FinCom recommends passage. (Article 21)
